Subject: [External] Docket number 2020-229-E

My name is John Raves and I live in Charleston, SC. I am emailing in regards to Docket Number: 2020-229-E.

I support energy freedom in South Carolina.

- The Energy Freedom Act was adopted in order to advance the responsible development of renewable energy in South Carolina in a way that protects and benefits ratepayers, increases consumer choice, injects additional competition into the state's energy market, and promotes the state's policy of encouraging renewable energy.
- Dominion Energy's proposed changes are a direct attack on solar and energy independence!
- My family opted for solar energy because we appreciate having a choice, we are contributing to job growth in SC and we want to ensure that our children and grandchildren continue to have cost effective renewable energy sources in the future.
